FLORIDA POWER & LIGHT COVID-19

For customers experiencing hardship as a result of COVID-19, we have resources from FPL available to help, and to the extent they are available, we'll continue to connect customers with resources from federal, state and local authorities. A good place to learn more is [here](#). We have also implemented the same policies that we do during major crisis events and are suspending electrical disconnections, providing payment extensions and waiving certain late payment fees for customers in a hardship situation – policies that will remain in effect while Florida is under a state of emergency.

Incentives Clean and Sober Living

Structured Living at Incentives, Inc.

First and foremost, we do not allow any illegal or illicit drugs, including alcohol and steroids. If clients are on prescribed medication at any time during their stay, the Incentives staff must be informed. Residents must be willing to submit to regular drug and alcohol testing to ensure the safety of the client and the community.

All Incentives clients must obey a community wide curfew. This is to help teach responsibility and maintain structure not only in the community but in each individual's own life. In addition, all clients must attend a mandatory weekly community meeting every Sunday at 6PM featuring lectures and recovering speakers from the community.

All residents are required to seek employment or attend school while living at Incentives. Living a structured and active lifestyle with work, school, regular 12 step fellowship meeting attendance, and participation in that 12 step fellowship with a sponsor and step work is a requirement while living at Incentives and is critical in maintaining long term recovery.

I Can Living and Learning Center's

Employment Program provides an opportunity for individuals with disabilities to secure suitable employment. The Employment Specialists help participants learn how to do the following: identify an employment goal, properly complete an employment application, prepare a resume, prepare for an interview, utilize appropriate job search methods and, most importantly, help maintain employment. We provide follow-up services and also provide post employment services to those with significant disabilities.

Our approach is to negotiate career/vocational options for vocationally disadvantaged persons. We achieve this by creating a partnership between local employers and **I Can Living and Learning Center** Vocational Coaches. Partnerships are formed by utilizing methods in the fields of vocational rehabilitation, counseling, marketing and sales. The Employment Specialist is dedicated to meeting the needs of our participants who are looking for meaningful jobs in community settings and the employers who look for trained, reliable, and capable employees.

Disability discrimination occurs when an employer treats a qualified individual with a disability who is an employee or applicant unfavorably because he/she has a disability.

CityHouse program

This program helps divert children from being placed in the child welfare system while the mothers seek to reestablish themselves so that once again they may care for their own children. Effective care was provided to the children apart from their mothers, while a desire to do more for their mothers was ignited.

Over time, it became clear that if more emphasis could be placed on the family unit rather than just the children, these single mothers in need would have better opportunities to develop healthy lifestyles enabling them to provide sustainable, loving and proper care to their children. We established CityHouse in 2014 to provide long-term, transformational assistance to mothers and their children.

In order to be considered for the CityHouse program, applicants must meet the following criteria:

1. Applicants must be a [current resident of Palm Beach County](#)
2. Applicants must be [at least 21 years old](#)
3. Applicants must have [no more than 2 children](#) and children must be [under the age of 8](#)
4. Applicants [cannot be currently pregnant](#)
4. Applicants with a history of substance abuse must have at least a [year of sobriety and actively working a recovery program](#)

If you meet the above criteria please continue with the application for the CityHouse program. Thank you.

Family Promise

What we Do

Family Promise is part of a national organization with over 180 affiliates that provides temporary shelter, transportation, meals and comprehensive case management for families who are experiencing homelessness.

How we Do it

We partner with local, faith congregations to provide shelter. Each host congregation offers our guests a place to sleep for one whole week, three to four times per year. The hosts also supply breakfast, lunch and dinner meals.

Volunteers

Volunteers are the heart of the program. They prepare meals, tutor both children and parents, transport guests to job interviews and work, help out at the Day Center, assist guests in finding jobs and housing, and share specialized skills, such as resume writing, financial planning and parenting.
